Suitability of these licences:

These licences make the 3rd-party libraries and assets suitable for the project by being legal for the manner in which they were used, ensuring NFR_LIBRARY_LEGALITY has been met.

- Personal/Commercial Use with attribution - Useable with owner being credited
- Non commercial with attribution - Useable since our project is not commercial, with owner being credited
- Personal/commercial use - Useable since project is not for commercial gain
- CC0 - No limitation on using the assets, hence suitable.
- OGA-BY 3.0 - Allows use with attribution.
- Apache License 2.0 - Allows reproduction/distribution of work.
- CC BY-ND 4.0 - Suitable because no adaptations were made to the asset and attribution was given.

Features required in Assessment 1 that were not fully implemented:

- No missing requirements.
